Key City Gymnastics Club Coaches in Training Program**

Key City Gymnastics Club is looking to train enthusiastic people who wish to learn how to coach, who are interested in learning about the benefits of a healthy and active lifestyle; understand the importance of physical literacy and the benefits of gymnastics as a fundamental movement sport.

This is an ideal opportunity to either start your professional career, or as a part-time opportunity while raising your children, or when you are ready to slow down.

We take pride in the course we offer and dedicate our time and attention to ensure our trainees have all the tools, education and support that is needed to fulfil their requirements to receive their National Coaching Certification.

The CIT (Coach in Training) Program consists of approximately 5 hours of theory as created in the Gymnastics Canada CIT Program and adapted for this club specifically, and 20 hours of volunteer mentoring in our Advanced, Developmental and Community Programs for hands-on and experiential learning with our most qualified coaches. Upon successful completion of this component you are able to take the NCCP level one course and begin your career as a coach.

The cost of this program is \$80 which covers the instructional time, hands on coaching experience and leadership training provided by Key City Gymnastics Club (KCGC).

National Coaching Certification Program (NCCP) includes:

1. Introduction
2. Theory
3. Discipline specific (artistic gymnastics, trampoline, rhythmic and pre-school gymnastics)

The cost of each of these components is \$80

Please contact us for your questions!

Requirements:

Minimum 18/19 years of age

Loves to work with children

Excellent attitude, engagement and enthusiasm for the position

Superior relationship building and communication skills

Dependable, reliable, committed and professional
