

Mommy & Me Gymnastics

Taelor grew up doing gymnastics, starting out in junior gym programs then competing as a level 4 gymnast. She began coaching at the age of 16 and coached off and on since then. Her passion for working with people has been evident throughout her life:

- In the summer of 2012 she volunteered in an orphanage in Ecuador working with children who have cerebral palsy.**
- Starting in March of 2013 she served a volunteer mission in Eastern Canada where she met her husband Jaedan.**

She always knew she wanted to be a mom and welcomed her daughter Tenley October 28th 2016.

They are excited to start Mommy and Me classes as a place to encourage children's development in a fun, safe and relaxed atmosphere, to create a support system for moms new and experienced, and to build friendships amongst parents and children.
